

**SEHSC Response to:
Environment Canada's Decision to Grant D₅ Board of Review
August 23, 2010**

We welcome the Environment Minister's decision to establish a Board of Review to further inquire into the potential environmental fate and effects of D₅ in light of new relevant data and information that was not available to Environment Canada when it completed its initial evaluation.

The establishment of this Board of Review is consistent with SEHSC's commitment to protecting the environment using the most advanced and up-to-date science, and we look forward to assisting the Board in whatever way we can.
